

## Covid-19 Policy (updated September 2022)

At our recent Committee meeting we reviewed our Covid-19 policy. We assessed the risks and the precautions we are taking. The precautions are:

Hand sanitiser available

Face shields available

Ventilation

Bringing our own drinks

Keeping a register of those attending classes

In the light of this review we no longer require members attending classes to have been vaccinated but we do expect that any member with any symptoms of illness will not come to a class. If anyone suffers Covid type symptoms after a class we ask that they let the Secretary know so that we can advise members. The Committee will continue to keep the policy under review.
